

PLEASE JOIN THE BUILDING COMMITTEE & DESIGN-BUILD TEAM

COMMUNITY WORKSHOP

Thursday, January 7, 2021

6:30-8pm via Zoom

(login details on District website calendar)

Facilitated by the Design-Build Team- Cushing Terrell/Martel

Goal: To receive Community input to help prioritize projects within the preferred design concept and review bond language.

BUILDING COMMITTEE MEETING

Monday, January 11, 2021

6:30-8pm via Zoom

(login details on District website calendar)

Facilitated by the Design-Build Team- Cushing Terrell/Martel

Goal: To prioritize projects within the preferred design concept, review bond language, and develop a recommendation for the Board.

SCHOOL BOARD MEETING

Wednesday, January 20, 2021

6pm via Zoom

(login details on District website calendar)

Facilitated by the Design-Build Team- Cushing Terrell/Martel

Key Agenda Items: Review and approve bond language, call for the bond election and regular election.

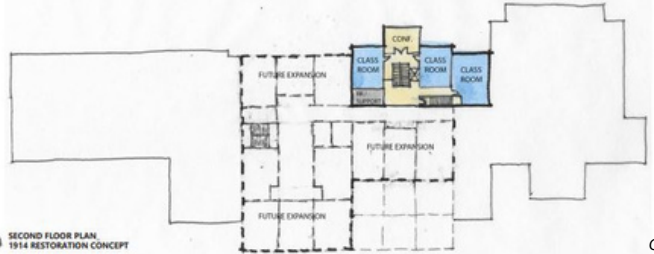

PREFERRED CONCEPT APPROVED BY GGS BOARD- NOVEMBER 30, 2020

1914 Restoration Concept

Reclaiming the 1914 original school entry provides a new secure entry with adjacent administration offices and fully accessible spaces via elevator on the main level & upper level. A small addition provides for upgraded egress for the second floor along with an additional teaching space. The fully accessible entry allows for increased visibility and expanded pick-up/drop-off zones related to safety and security for pedestrian and vehicular traffic flow. This concept separates school-hour use from after-hour use by relocating the main entry to separate these functions. Smaller additions and renovations will allow for both more gym and cafeteria seating, while providing a new commercial kitchen. The library will be upgraded with maker spaces. Classroom reorganization will be enhanced by twenty-first century STEM labs. This concept also includes updating the baseline facility deficiencies and is master planned for future additions and growth.
